

Greener Pastures

Ranching Ltd.

Education Services Available

Year Round Grazing Systems - This 3-day course is a very intense business management school which includes economics, finances, human resources, grazing, cell design, rejuvenation, the grazing chart, dormant season grazing, swath grazing and bale grazing.

Intensive Cell Grazing - This two day grazing school looks at the grazing side of the full school. It still touches on some of the business management but not as in depth.

Grazing Day – This is a one day grazing school or a one day pasture walk, which teaches basic grazing principles and cell design.

Greener Pastures Workshops – This is a one day workshop which teaches hands on fundamentals. Workshop topics can include: gross margin analysis, pasture calculations, cell design, the grazing chart, human resources or fencing.

Pasture Management for Acreage Owners – This is a one day grazing school which teaches basic grazing principles and environmental stewardship practices that acreage owners can implement to keep their land healthy and aesthetic.

The Sustainable Grazing Mentorship Program – This provides small group sessions and on-farm mentoring with in Alberta. Funding for the SGMP is provided by Alberta Agriculture and Rural Development through the Growing Forward Initiative.

I am also available for speaking engagements, seminars and conferences.

Please call or email for pricing and information about setting up a course in your area.

We can also tailor a course to suit your needs.
